### Vibotix IT

#### User Experience Designer

March 2019 - August 2019 (6 months)

Dhaka, Bangladesh

It was a great experience working with the Vibotix team. I worked as a UI designer and UX consultant.

#### Responsibilities:

- ✦ Plan and implement new designs
- ✦ Illustrate design ideas using storyboards, process flows and sitemaps
- ✦ Communicate with clients to understand their business goals and objectives
- ✦ Develop technical and business requirements and always strive to deliver intuitive and user-centered solutions
- ✦ Combine creativity with an awareness of the design elements

- ✧ Create prototypes for new product ideas
- ✧ Test new ideas before implementing
- ✧ Conduct an ongoing user research and layout adjustments based on user feedback
- ✧ Gather and evaluate user requirements in collaboration with product managers and engineers.

Used Software: Figma, Adobe Illustrator, Adobe XD, Adobe Photoshop, Mockup.

## POOKA (পুকা)

### Software Tester

October 2018 - December 2018 (3 months)

Bangladesh

I started working as a App tester and had some amazing experiences like

Pooka - “Pooka” is a story sharing social networking app where stories are in chat conversation form. It will give you the experience of reading someone's chat stories. The full app is in Bangla language to communicate more intensely with Bangla speaking people of Bangladesh.

App Link: <https://play.google.com/store/apps/details?id=com.techcare.pooka>

### Responsibilities:

- ✧ Test Case creation and execution in Microsoft Excel
- ✧ Perform functional, stress, application, regression and performance tests
- ✧ Defect Reporting ,analyzing and prioritizing defects , “Ready to Test” Tickets testing
- ✧ Perform browser compatibility testing on desktop : Google Chrome, Firefox, Internet Explorer and Safari
- ✧ Preparing daily QA Report ,attending Scrum meeting and working with Developers
- ✧ Training freshers , working both as a team and an individual
- ✧ Plan, schedules and implements testing projects
- ✧ Review functional and design specifications
- ✧ Write Technical Documents
- ✧ Maintain JIRA issues
- ✧ Communicating with product owner and development team
- ✧ Project Management

Used Software : Microsoft Word, Excel, Powerpoint , Test Automation tool HP UFT 12, Selenium IDE .

### TechCare.Co

#### Software Quality Assurance Tester

July 2018 - September 2018 (3 months)

Bangladesh

Worked as an app tester and bug reporter.

Rokomari - Rokomari.com is now one of the leading e-commerce organizations in Bangladesh from where you can buy books easily.
